Brookes Publishing Co, United States, 2016. Paperback. Book Condition: New. 254 x 178 mm. Language: English . Brand New Book. Many teacher resources explore the fundamentals of Universal Design for Learning (UDL). This one takes UDL to the next level for educators who understand the basics-and can't wait to start using UDL in their lesson plans and classrooms. In this practical, accessible guidebook, UDL expert Patti Kelly Ralabate walks teachers through the entire UDL lesson planning process, from developing learning goals to monitoring student progress. Through vignettes, exercises, video demonstrations, and other immediately useful resources, K-12 educators will discover how to translate UDL from theory to practice and plan lessons that meet every learners needs. An essential guide for teachers, college instructors, specialized instructional support personnel, IEP team facilitators, curriculum planners, and inclusion facilitators, this book will help educators supercharge their lesson plans with one of today's best teaching approaches-and improve outcomes for students with and without special needs. This book helps teachers: * Review and understand the big ideas of UDL-what it is, what it is not * Create effective learning goals based on content and performance standards * Make sure learning goals are S.M.A.R.T.: Specific, Measurable, Attainable, Results-oriented, and Time-bound * Design lesson plans that address learner variability-even when teachers don't yet know the specific needs of every student * Measure what matters by applying UDL principles to assessment of student progress * Infuse UDL features into traditional instructional methods (with examples of how 10 other educators did it!) * Enhance UDL lessons with materials, tools, and media that add real value * Use self-reflection strategies and professional learning communities to continuously strengthen everyday practice Practical Materials: To guide teachers through each phase of the lesson planning process, the book includes scenarios, models, charts, application exercises,...
