

A Dangerous Place: California's Unsettling Fate

Filesize: 4.91 MB

Reviews

Most of these ebook is the perfect publication offered. Sure, it really is play, still an interesting and amazing literature. You wont truly feel monotony at whenever you want of your time (that's what catalogs are for about in the event you check with me).

(Roosevelt Rohan)

Penguin Publishing Group, United States, 2004. Paperback. Book Condition: New. Reprint. 202 x 126 mm. Language: English . Brand New Book. Writing with a signature command of his subject and with compelling resonance, Marc Reisner leads us through California s improbable rise from a largely desert land to the most populated state in the nation, fueled by an economic engine more productive than all of Africa. Reisner believes that the success of this last great desert civilization hinges on California s denial of its own inescapable fate: Both the Los Angeles and San Francisco Bay areas sit astride two of the most violently seismic zones on the planet. The earthquakes that have already rocked California were, according to Reisner, a mere prologue to a future cataclysm that will result in immense destruction. Concluding with a hypothetical but chillingly realistic description of what such a disaster would look like, A Dangerous Place mixes science, history, and cultural commentary in a haunting work of profound importance.
