GRIN Verlag Jul 2010, 2010. Taschenbuch. Book Condition: Neu. 210x148x1 mm. This item is printed on demand - Print on Demand Neuware - Essay from the year 2010 in the subject Economics - Monetary theory and policy, grade: 1,3, Berlin School of Economics and Law, course: International Trade and Monetary Economics, language: English, abstract: 'Loose funds may sweep round the world disorganizing all steady business. Nothing is more certain than that the movement of capital funds must be regulated' Keynes, J.M. Already Keynes warned against a free movement of capital. Those warnings were taken seriously by the international community and the IMF allowed in its articles the use of capital controls. The attitude towards those controls changed remarkably during the 1980`s when a general trend towards deregulation occurred. This trend peaked in an attempt to include the purpose of liberalizing capital movements in the Articles of Agreements of the IMF. Coinciding with the Asian Crisis, parts of the academic profession heavily opposed this idea and eventually, some of the fund`s representatives revised their general opposition against capital controls. Nonetheless, in big parts of the academic profession, capital controls carry a negative smack and the ultimate goal of free capital flows...
