ENGAGED BUDDHISM: THE DALAI LAMA'S WORLDVIEW

Oxford University Press, New Delhi, India, 2009. Paperback. Book Condition: New. First Edition. This volume elaborates on, examines, and understands the Dalai Lama's thought on various current issues such as non-violence, human rights, and the political issue of the autonomy of Tibet. This is one of the first books in spite of the range of books on the Dalai Lama to actually seek out the conceptual foundations of his thought. The Dalai Lama's ethical teachings have gained worldwide recognition primarily because his actions and writings reflect a concern for combining ancient religious traditions with a contemporary political, social, and religious cause. His thought extends to the arena of international politics and human relations. By categorizing the Dalai Lama's thought under various headings and sub-themes, the book attempts to articulate and carry out an analysis of this thought. Allusions to other thinkers and writers have been made in order to draw parallels to the thought of the Dalai Lama. Such a comparative approach helps to bring out the significance of the eclectic dimensions of the Dalai Lama's thought. The author collates in this work perhaps the most comprehensive bibliography ever put together of the Dalai Lama's works. She also provides the entire transcription of an interview with the Dalai Lama which she conducted personally in August 2001. Printed Pages: 263. Size: 14 x 22 Cm.
