

## The Quantum Genesis: The Creation of the Universe According to a Quantum Reading of the Bible

Filesize: 4.12 MB

### ***Reviews***

*This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Is quantum science able to help us understand the creation of the universe and shed light on the narrative presented by the book of Genesis? If Hamlet lived in our century, he would say that there are more things in heaven and earth than are dreamt of not only in our philosophy, but also in our science. This may be felt today because the Newtonian paradigm that frames our experiences and our common sense is being challenged by the more complex paradigms of relativity and quantum, field and superstring theories. As a consequence, our world views and religious frameworks are also invited to evolve accordingly. The Quantum Genesis: the creation of the universe according to a quantum reading of the Bible is an attempt to contribute to a new dialogue between religion and science. It proposes an innovative look at the first verses of Genesis according to the post-Newtonian paradigm, which embraces quantum field and string theories. Its chapters offer a new reading of the following narratives: 1) In the beginning God created the heavens and the earth ; 2) And God said, Let there be light ; 3) Let there be the firmament ; 4) Let the Earth bring forth the living creature ; 5) Let us make man in our image, after our likeness ; 6) And God saw every thing that He had made, and, behold, it was very good. Indeed, scientific breakthroughs have rushed into fields previously monopolized by religion and philosophy. Paradigm shifts have moved science away from the tangible and concrete, drawing it to the conceptual, the subtle. Religious mysteries like eternity, omnipresence, interpenetration between energy and matter, conscious...
